

A decorative graphic on the left side of the slide. It consists of a blue parallelogram and a light green parallelogram, both tilted at an angle. The blue shape is in the foreground, and the green shape is partially behind it. They are set against a dark blue background with subtle diagonal lines.

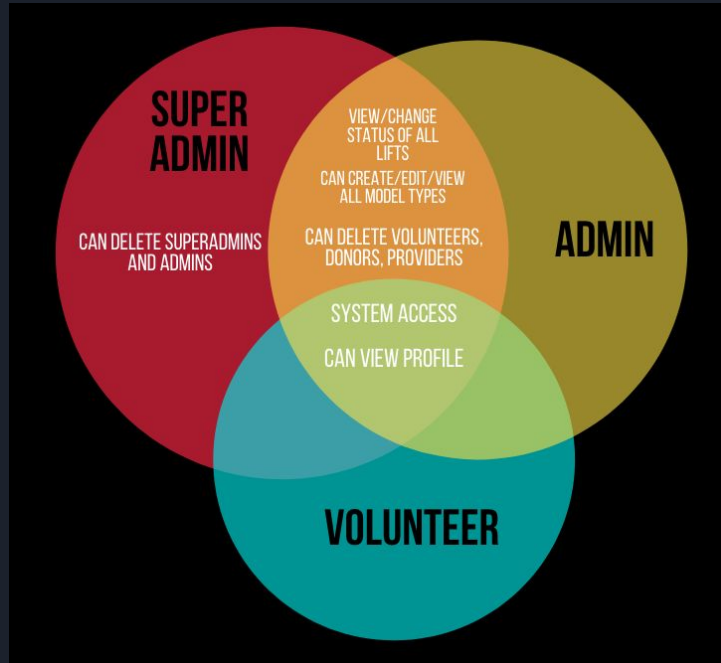

# lifTOvers Team 2

(TEAM 7)

# lifTOvers Intro

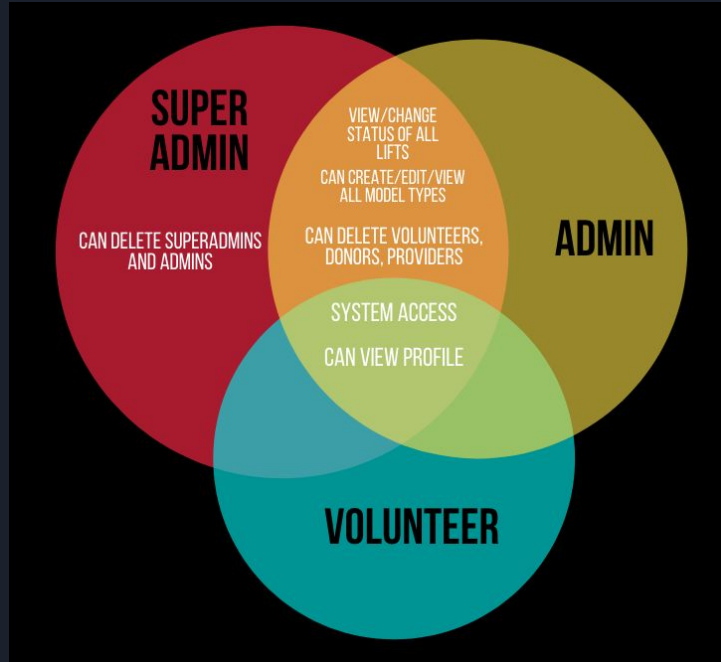

# Demo: Volunteer

AS A VOLUNTEER , I CAN LOG IN AND SEE MY PROFILE, AS WELL AS EDIT MY BASIC INFORMATION. I DO NOT HAVE ACCESS TO OTHER PAGES.

IF I FORGET MY PASSWORD, I CAN RECOVER IT.

# Demo: Admin

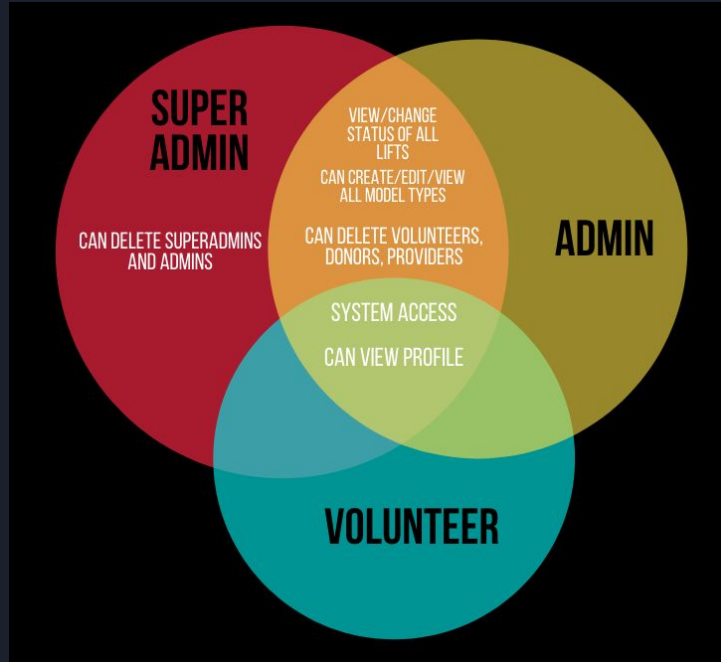

AS AN ADMIN , I CAN LOG IN AND VIEW/EDIT ANY MODEL. I CAN DELETE ANY MODEL EXCEPT ADMIN.

I WANT TO SEE LIFTS OF HIGH PRIORITY AND HAVE BUTTON ACTIONS TO CHANGE THEIR STATUSES.

I CAN ALSO APPROVE NEW USERS.

# Demo: Super Admin

AS A SUPER ADMIN, I HAVE SAME PERMISSIONS AS ADMIN WITH ONE ADDITION.

I CAN DELETE OTHER ADMINS AND SUPERADMIN.

# Deployment & Handoff - Mongo & api

```
config.js - liftovers-api - Visual Studio Code

JS config.js X

> JS config.js > ...
// this connects to the liftovers database, leave this as is
// the format of this url is "mongodb://[username]:[password]@[host]:[port]/[database]"
// If u guys are interested in directly accessing the database, download mongodb compass and go to connect
// Fill in host, port, username and password and connect & you're good to go :)
module.exports = {
  url: 'mongodb://[username]:[password]@[host]:[port]/[database]'
}
```

```
config.js - liftovers-admin - Visual Studio Code

JS App.js JS dashboard.js JS config.js X

src > api > JS config.js
1 // this is their original api
2 // export default "https://[url]";
3
4 // current deployment of our api
5 export default "https://[url]";
6
```

# Deployment & Handoff - Twilio

```
// liftover's twilio account id and token -- does not work for us
// const accountId = "XXXXXXXXXXXXXXXXXXXXa";
// const authToken = "XXXXXXXXXXXXXXXXXXXX";

// this is our id and token -- the account however is connected to the deployed api link
// BUT it is only connected to the accept text function which shouldn't affect much
const accountId = "XXXXXXXXXXXXXXXXXXXX1";
const authToken = "XXXXXXXXXXXXXXXXXXXX";
const client = new twilio(accountId, authToken)
```

# Technical Discussions

## ADMIN FLOW

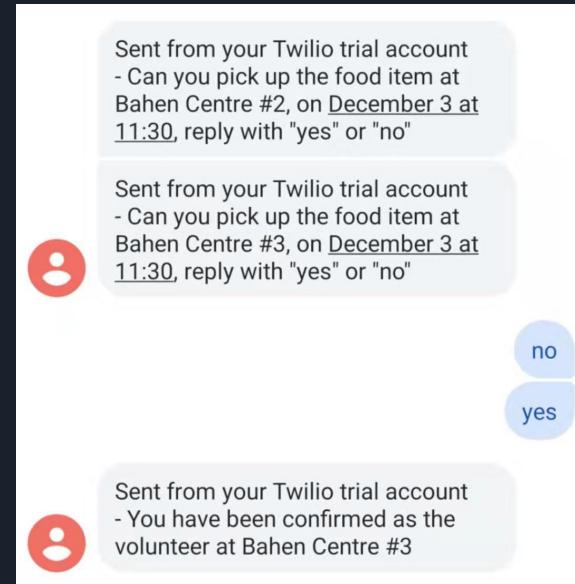

## USER FLOW

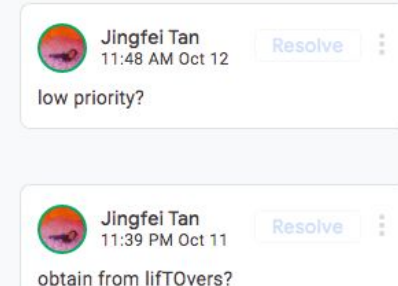

# Future Work

1. Volunteer features
  - a. # of hours
  - b. Multiple locations
  - c. Picture upload
2. Texting
  - a. Reply by code to accept
  - b. No need to reply to every text

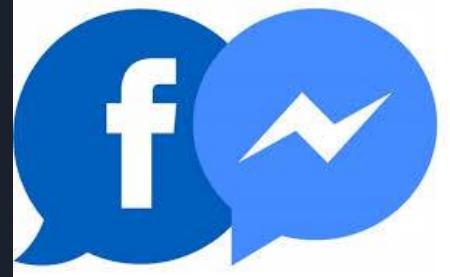

## WISHLIST FOR VOLUNTEER ACCESS

- A way for volunteers to retrieve info about their stats
- Volunteer profile (so what the volunteer sees their profile on their interface)
  - # of lifts
  - # of hours
  - Locations
- Link to waiver/contract form

# Process Discussion

2 To do + ...

Authentication for the login/sign up pages. ...  
Using npm to authenticate.  
Added by faye-tan

For model pages, search isn't working. Also ...  
may need filtering/ordering drop down menus.  
Added by faye-tan

Automated as To do Manage

4 Priority Tasks + ...

Faye: Modal popups for each model which contains all their information, and an edit/delete button (Due Monday Nov 25)  
Added by faye-tan

Stacey/Fillis: Get the dashboard displaying multiple items, ability to approve items on dashboard (Due Monday Nov 25)  
Added by faye-tan

3 In progress + ...

Andries: Have Lifts pages display Lifts as the Volunteer page does, remove Create button as lifts are not created through our web app.  
Added by faye-tan

Tosin + Ryan: Sign-in page  
Added by faye-tan
